The Contemporary Perrin & Rowe
Bathroom Collection

Perrin & Rowe: The fusion of function and beauty; durability and desirability.

The strength of the Perrin & Rowe brand is built upon a clear understanding of the requirements in the luxury sector: product reliability, durability, quality and real value for money.

Renowned for its unrivalled quality and an exacting attention to detail, Perrin & Rowe's wide and varied product portfolio includes kitchen taps, bath and basin brassware, bathroom accessories and bathroom chinaware.

Perrin & Rowe's products are outstanding examples of design excellence combined with cutting edge precision engineering. Our products are not mass produced; instead we concentrate on perfecting each individual hand-built product in our UK manufacturing facilities.

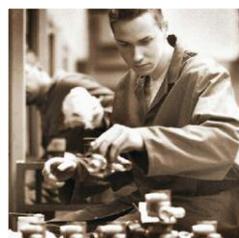

Our reward - Perrin & Rowe products have consistently been specified and installed in the most stunning and luxurious hotels, resorts, spas and private residences around the World.

The Perrin & Rowe Promise

All products are:

- Manufactured in the UK from the highest quality raw materials available;
- inspired by innovation and driven by engineering excellence;
- manufactured employing the latest available technology and made from low lead brass;
- plated to a thickness that exceeds the industry standards. This additional plating will ensure a deep, protective coating that is resistant to wear and tear as well as pleasing to the eye;
- assembled by hand and individually water tested to ensure peace of mind;
- made to include bearing rings and engineering 'O' seals on handles and spouts to ensure maximum durability. This feature prolongs the service life of the product and gives Perrin & Rowe products a stable "wobble free feel";
- made with ceramic disc valves supplied by the world's leading ceramic cartridge manufacturer. Valves are repeatedly tested up to 500,000 life cycles, (turned on and off with pressurised water), this equates to at least 25 years of use in a domestic installation;
- specifically manufactured for each market. No additional adapters or converters are required for installation.

BATH AND BATH SHOWER MIXERS

What makes a manufacturer different? Well, some would say it's attention to detail. Here at Perrin & Rowe, we'd certainly agree with that. Virtually unique for a brassware manufacturer, we control every key stage of production from concept to completion. And that includes managing our own plating. Every item is initially plated in nickel and then chrome, if required. Pewter, shown above, is created by our team of skilled polishers gently sanding nickel fittings by hand until a perfectly soft, semi-matt appearance is achieved.

Mix it up

Contemporary Collection bath shower mixers present a new interpretation of a perennial bathroom classic. Wall or bath-mounted, bath shower mixers deliver the perfect practical solution for the family bathroom that needs to accommodate everything from the kids' bathtime to more sophisticated soaking.

Bath shower mixers are available with lever or crosshead handles and an optional handshower.

Finishes available on entire range - chrome, nickel, or pewter, unless otherwise stated.

Crosshead or Lever Handles available for all products shown.

BATH SETS

Like most truly luxurious brands, we're discerning about where our name appears. However, with Perrin & Rowe products, you'll feel and experience the quality of our products before you see our name. Of course, look hard enough and that distinctive logo will catch your eye, but it's likely to be after you've felt the difference that quarter turn ceramic discs make; seen the bubbling, smoother flow created by an aerator and enjoyed an altogether superior and sensory bathroom experience.

That Sinking Feeling

Sinking into a long, bubble-laden bath is a pleasure most of us look forward to – preferably with a good book and full wine glass to hand.

Unmistakably Perrin & Rowe, our Contemporary Collection bath taps have lines that bring together the best of classic and contemporary forms and feature generously proportioned 7" or 10" spouts with a choice of lever or crosshead handles.

Three hole wall mounted bath set with lever handles
This product is only available in chrome finish

If your bath needs to work harder, why not consider one of our versatile Contemporary Collection four hole bath sets? Including a handshower with a fully flexible hose, the combination of bath taps - available with 7" or 10" spouts - teamed with a handshower is indispensable for family bathrooms.

Bath taps are available with lever or crosshead handles and handshowers are available with angled or vertical designs, that sit neatly within a shaped base when not being used - putting an end to twists and drips.

BASIN & BIDET SETS

Bathroom trends come and go, but quality, durable brassware will last for decades. That's why at Perrin & Rowe we're not interested in fads or fashions, angles or edges – just high quality, well built brassware that is designed to withstand the test of time. Precision engineered, assembled and finished by hand, our Contemporary Collection makes its modern mark alright, but beyond the looks you'll find craftsmanship and attention to detail that is unique among today's brassware brands.

A game of two halves

Do you choose your brassware to go with your basin or your basin to go with your brassware? The answer is neither; after all, there is no point of one without the other. Basins and brassware should work in perfect harmony, so take the time to select the perfect partnership and consider shape, form and function in equal measure.

Contemporary Collection wall-mounted taps complement surface-mounted basins and bowls; robust monobloc mixers set off cubist basins and wall-mounted taps with rectangular fixing plates and slim, tapered lever-handles are just the thing for elongated, shallow trough basins.

All Contemporary Collection basin and bidet taps are available with crosshead or lever handles.

SHOWER SETS

Your shower should be the focal point of your bathroom, wet room or showering enclosure. This is not the time to be shy or to settle for anything less than brassware that you love. Why have body jets, handshowers or oversized shower heads? Well, why not? Precision machined in a single process by advanced CNC technology and engineered from solid brass, the average Perrin & Rowe shower valve weighs in at 3kg. Not, we can assure you, something to be taken lightly.

SHOWER SOLUTIONS

Create your own shower

Rapids of fast falling water, or a relaxing and rejuvenating rainfall? Everyone's idea of the perfect shower is different. Which is why, with such a wide range of different styles, shower heads and accessories, you can virtually design your own Contemporary Collection shower.

No limitations, just unimaginable luxury.

Safer Showering

Peace of mind comes as standard with Perrin & Rowe. All Contemporary Collection shower valves are thermostatically controlled by a highly effective wax cartridge to deliver you the best possible showering experience. A pre-set, temperature of 38°C reduces the danger of scalding and, in the unlikely event that hot or cold flows of water fail, a shut-off device will automatically activate.

Perrin & Rowe shower valves are available as exposed or concealed designs. Showering space no object? Then it has to be a maximum impact, exposed valve. Need a little more elbow room? Then choose a concealed valve, with all pipework hidden in the wall.

Decisions, decisions

Undecided about the components you'll need to create your perfect Perrin & Rowe shower?

Then let us do the hard work and choose from one of the following, seven complete shower sets – no matter your preferences, there's bound to be one that's just right for you and your bathroom.

The hardest choice you'll make is the finish.

PERRIN & ROWE
MAYFAIR LONDON

CHINAWARE

Beautiful bathroom brassware needs beautiful chinaware. Consistent with our heritage, the Perrin & Rowe Chinaware Collection includes basins, bowls, lavatories and cisterns and is manufactured exclusively by Perrin & Rowe in it's own factory in the heart of English pottery country. There really is no better way to show off your Perrin & Rowe brassware.

2938
Deco Four Piece Suite

Deco Suite

With its generous proportions and elegant, timeless styling, Deco chinaware works equally well in both contemporary and traditional bathroom schemes. Single, two and three hole basins are available and lavatories and cisterns are close coupled.

THE ACCESSORY COLLECTION

Complete your Perrin & Rowe contemporary brassware with one of our sleek, stylish accessories. From towel rails to robe hooks, each piece has been perfectly crafted to the highest quality.

Our Accessory Collection is the ultimate indulgence for the bathroom.

Hang up, tidy up, roll up

Just like a stylish suit every bathroom needs its finishing touches. So, since you've made the hardest decisions such as tiles, suites and taps, why not add some of Perrin & Rowe's beautiful accessories to give your bathroom an extra injection of style.

If you are looking to store away your pampered products, Perrin & Rowe's sleek corner basket is the ideal accessory for keeping your products to hand as you enjoy your bath or shower.

Alternatively, if you want to show off your luxurious silk gown or deliciously fluffy towelling robe, then choose from Perrin & Rowe's robe hooks - available in single or double options.

DISCOVER MORE

The Perrin & Rowe Traditional Bathroom Collection

We hope our Bathroom Collection has inspired you.

In addition to our Contemporary Bathroom Collection, we also offer a Traditional range of taps and showers, chinaware and accessories. Understated, they are classic, yet with robust and generous design detail, that is unmistakably Perrin & Rowe. And, just like our Contemporary brassware, all of our Traditional taps and showers are also made exclusively in our factories in the UK.

FROM PERRIN & ROWE

The Perrin & Rowe Filtration Collection

Using “Triflow® Technology”

All the style and quality you would expect from Perrin & Rowe but with the added luxury of filtered drinking water.

Our newest range of kitchen filtration taps uses high quality Swiss made ceramic cartridges to dispense the finest quality drinking water through a dedicated waterway within the taps spout.

The system offers advanced four stage filtration while retaining the important elements in the water for your health such as fluoride and calcium.

The Perrin & Rowe Kitchen Collection

The Perrin & Rowe Kitchen Collection offers a multitude of design and styling options. Choose a sleek Orbiq, Oberon or Io from the contemporary range; opt for the timeless form of a Phoenician, Minoan or Ionian from the Traditional Collection or go for rustic style with a Picardie, Provence or Alsace from the Country Collection.

Enhance your tap with a stand-alone, patented rinse, then customise your tap to suit. An alternative spout; crosshead handles rather than levers? Wall mounted rather than surface mounted fixings? Handles to match your work surface? No problem – it’s your tap and most importantly, it’s your choice.

Manufactured exclusively in our own factories in the UK and assembled by hand, all of our kitchen taps feature ceramic disc valves and are individually tested.

COMING SOON

Originally designed and created for the prestigious Lanson phase of Berkeley Homes' Chelsea Bridge Wharf development in London, this capsule collection of wall mounted bath and shower mixers and basin taps squares up beautifully to the challenges posed by contemporary bathroom design that needs to make as much of a statement now as in the future.

Perrin & Rowe bathroom taps, showers and accessories have been chosen by discerning designers for some of the world's most luxurious resorts, hotels, retreats and hideaways. They include:-

- The Taj Mahal Palace

ISO 9001 CERTIFIED ORGANISATION

For your reassurance, every piece of Perrin & Rowe brassware is engineered from approved materials to exacting standards and hand-assembled within an ISO 9001:2000 accredited, quality assured environment. Recognised all over the world for its stringent, detailed standards and attention to processes ISO 9001:2000 approval is a true mark of international quality.

Perrin & Rowe believes in upholding the international standards required wherever its products are sold. Our international approvals include WRAS, UPC, the WQA Gold Seal, PUB and the Australian Standard.

Should you have any concerns or queries about your Perrin & Rowe brassware, we will be only too pleased to help. We operate a dedicated aftersales and technical advisory service, so if you have a question, just ask us.

TCL Manufacturing Ltd operates a programme of continuous product design, development and improvement. As such, TCL Manufacturing Ltd reserves the right to change and update brassware, showers and accessories without notice. Whilst we have made every attempt throughout this brochure to use imagery that is faithful to product form and finish, variations resulting from photographic lighting, print and reproduction cannot be avoided.

Acknowledgments

TCL Manufacturing Ltd would like to thank Pam Carter at The Savoy, Corinne Cleret at Sofitel St. James and Angela Day at Chewton Glen for their help in arranging locational photography. Sofitel St. James, Chewton Glen, The Savoy and all product photography shot by Chris Reeve at Reeve Banks. Design and layout, Perrin & Rowe.
